**DETAILED ACTION**

***PAPERS RECEIVED***

The Information Disclosure Statement (IDS) filed 12/20/04 is acknowledged. The IDS has not been considered in this action.

***CLAIMS***

The claims are: 1 to 22

***Election/Restriction of Invention***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

- Group I claims 1 to 16 and 21 to 22 drawn to a method of heat treating Zn particles classified in class 75 subclasses 10.1.
- Group II, claims 17 to 20, drawn to a permanent magnet layer classified in class 428 subclass 692.1.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- The method of heat treating particles of Group I is not shared by Group II magnetic film.
- The corresponding special technical feature shared by Group I and Group II, zinc particles, does not define a contribution over the art, as event from JA 2001-295071 KANSAI PAINT CO, (cited by applicants) - see translation illustrating Zn dust particles -Detailed Description ¶ [0004],[0009]; Means ¶ [0009],[0021].

Examining all inventions together would be a burden to examination. The inventions have been shown to be classified in differing areas and have searches that are not coextensive, e.g., Group I searched in class 75 subclasses 343, etc. and Group II searched in class 428 subclasses 402, etc. The Group II article can be made by a materially different method - such as Zn particle formed by grinding from a solid source.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

A telephone call was made to D.W. Hanson, on 11/27/06, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### **CONCLUSION**

The claims are 1 to 22.

- Restriction has been required.
- No claim has been allowed.
- Information Disclosure Statement has been received.
